

JOB DESCRIPTION

EQUIPMENT OPERATOR

Bargaining Unit Position

FUNCTION

Reporting to the Shift Coordinator or Lead Hand, the Operator's responsibility is to participate in a team environment and undertake the tasks associated with the operations department including equipment operating, troubleshooting, site and equipment clean-up.

RESPONSIBILITIES

As an equipment operator you will:

1. Operate heavy equipment in compliance with the company's operating safety policies and procedures which includes Stacker/Reclaimers, Dumper, Ship Loaders and Locomotives.
2. Operate secondary pieces of equipment that include Dozer, Excavator, Dump Truck, Grader, Bobcat, Compactor and Water Truck for which training will be provided to Trigon's safe standards.
3. Participate in site clean-up and the washing of the Stacker/Reclaimers, Dumper, Ship Loaders, yard belts and Transfer Tower coal chutes, in order to maintain optimal performance of equipment.
4. Ensure company equipment is kept clean and work site is maintained in a safe manner.
5. Complete required paperwork, reporting and other documentation to ensure proper records and safety checks are maintained.
6. Complete training courses as specified in the Operations profile or other training identified by the Company that is required.
7. Assist in the training of other Operators, apprentices and site personnel based on your skills and abilities.
8. Support and ensure adherence to the Health, Safety, Environment and

- Quality procedures as outlined in the Trigon Business System (TBS) manual by responding to hazards and correcting them immediately if possible, or by advising the appropriate site personnel of these hazards. Bring concerns regarding health, safety, quality or environment to the attention of the Shift Coordinator.
9. Follow established procedures and operate all equipment and vehicles in accordance with appropriate regulations.
 10. Respond to the needs of other team members regarding site operation of heavy equipment.
 11. Identify operational problems and within your scope of training and experience, systematically isolate and correct these problems.
 12. Assist the Shift Coordinator and Lead Hand in meeting Company and team goals and objectives.
 13. Maintain a clean, safe work environment and must report all incidents/accidents to the Shift Coordinator.
 14. Be a proactive self-starter with a positive attitude and have the ability to work effectively with minimal or no supervision.
